## DECLARATION OF NON MULESING

Mulesing is a routine method in which farmers remove the skin around a lamb's breech and tail to prevent flystrike, in order to prevent their sheep from being killed by infections. It is a painful and traumatizing surgical procedure. Nootboom Textiles does not support these farmers and is against animal cruelty. No animal should suffer in order to fulfill human needs.

Hereby we confirm that our wool products (e.g. 04578 / 20020) are produced of yarn which is mulesing-free. Until there is an official certification for this, you can use this letter and logo and show your customers that you also care about animal wellbeing.

Yours sincerely,

Nootboom Textiles
